

2018 Alaska Interior Concealed Handgun Championship

Will your carry gear perform as you expect?
Find out, plus have a fun day with great people.

We'll be shooting 2 divisions: Compact and Standard. Compact guns are barrels 3.9" and under, Standard guns are barrels 4" and over measured from breechface to muzzle.

Your firearm must be carried on your belt at waist level, muzzle pointed at the ground within a 3 foot circumference of yourself while standing. Your holster must prevent trigger access while holstered. Belts, holsters and mag pouches must be suitable for every day, all day carry. Participants must carry firearm and magazines on their person at all times during the whole event. No double belts. No race holsters.

Allowed calibers are; 38sp, 38super, 357mag, 9mm, 40S&W, 10mm, 45acp, 41mag, 44sp, 44mag. Other calibers may be allowed, but it may be too light to knock down steel targets or it may be over powered and ruin our steel targets. Ask the Match Director. No steel core or bi-metal bullets. If the bullet sticks to a magnet you can't use that ammo. Steel cases are ok.

Everyone must shoot from concealed carry. Concealment garment must cover holstered gun and magazine pouches with arms out stretched to sides, parallel to the ground. If garment needs to be buttoned or zipped to accomplish this, it must be in that condition at start signal for each course of fire. Extended mags are ok when reloading from pouches. Standard length mags only in pistol at start signal.

The Match Director shall have final determination on firearms and equipment. USPSA Safety Rules will be enforced.
